

SAVONA^{WALL}

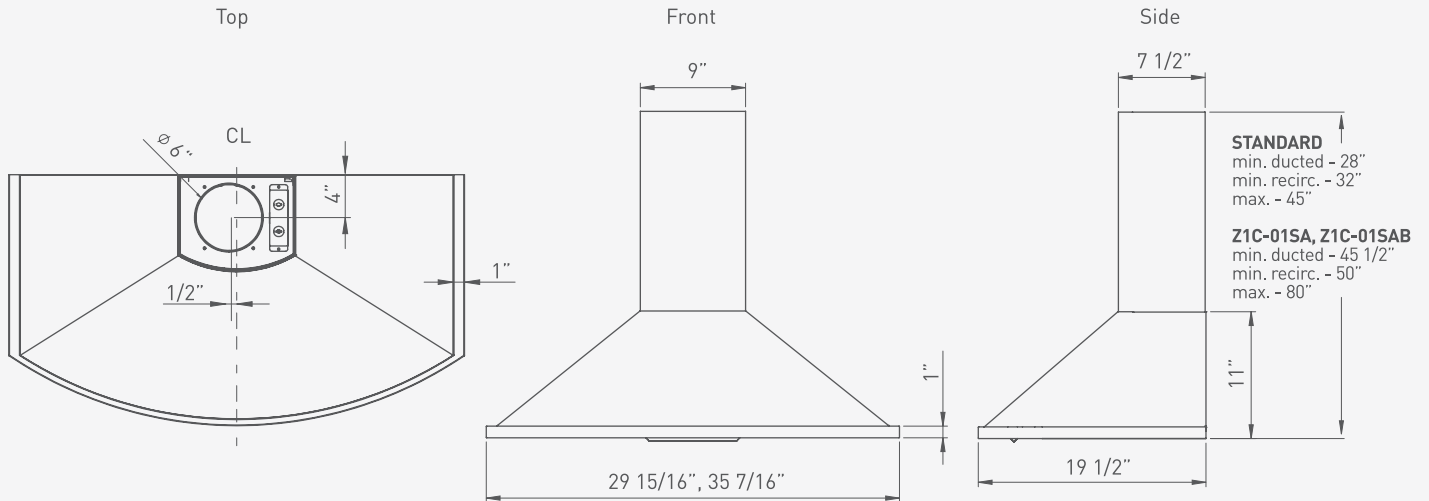

Savona's semi-circular surfaces accentuate this range hood's European design with delicate reflections of light and shadows. However, underneath the 11" tall body, Savona features a robust 685-CFM fan that operates at ultra quiet 1.8 sones on normal working speed. Gifted with great features like the optional recirculating kit, duct cover extension up to 12' and dual-level halogens it's hard to improve on this classic. But the 3-speed die-cut chrome electronic controls with LED illumination take Savona to an elite level. Savona is also available in black and 290-CFM version for cold-weather environments.

- Robust 685-CFM blower
- 1.8 sones at normal working speed
- Available 12' telescopic duct cover
- Electronic LED controls
- Available in black
